In academics, language assessment continues and will be transferred to next week. Math will also be added next week. In class the students listened to “Clifford’s Birthday Party” and enjoyed the fun mess the big red dog encountered. Moving on, K1 discussed the idea of birthdays. Using their fine motor skills, they cut out birthday cakes. They sorted birthday friends based on the months of the year. Some months will have one birthday. Others will range from two to four. To start us off, Emma will celebrate her birthday tomorrow. We will have a cake delivered to school before lunch. Please pack your child’s lunch accordingly as they will have an extra piece of sweet tomorrow.
