Hanoi, 29th, May, 2012

To: The Department of Education and Training

The Ministry of Education and Training has received official document no. 4389/SGD&ĐT-TCCB dated 03/05/2012 from the Department of Education and Training approving for the establishment of the International School of Vietnam with multi grade levels from Pre Kindergarten to year 12. The school will provide foreign curriculum and issue foreign diplomas for foreign children/pupils and partly for Vietnamese students for those who wish to be enrolled. The school is invested in and established by Tuan Duc Co Ltd. The Ministry of Education and Training has the following opinions regarding this matter:

1. Agreed with the proposal made by Ha Noi Department of Education and Training allowing the establishment of the International School of Viet Nam in Hanoi based on regulations and conditions for the correlative educational establishment and operational registration in Joint Circular no. 14/2005/TTLT/BGD&ĐT-BKH&ĐT dated 14/040/2005 guiding some articles of the Government’s Decree no. 06/ND-CP dated 06/03/2000 regarding co-operation with foreign investors in healthcare services, education – training, scientific research.

2. Upon approval of Chairman of the Ha Noi People’s Committee on issuing the decisions for the establishment of the school, it is requested that Hanoi’s Department of Education and Training pay attention to the following points when doing inspection on required criterion/conditions for the operation of the International School of Vietnam:
   ▪ The admission of children/pupils to the International School of Viet Nam and teaching of compulsory subjects are required to comply with current law’s regulations
   ▪ The International School of Vietnam needs to complete the registration procedures to become member of the International Baccalaureate Organization (IBO)

1. Under the circumstance that a Vietnamese Investor is allowed to establish an International School for foreign children/pupils, it is requested that Ha Noi Department of Education and Training to monitor, strictly manage, and report periodically to the Ministry of Education and Training regarding the
school’s activities as per Government’s regulations and report unexpected issues for timely guidance and possible solutions.

Above are the opinions of the Ministry of Education and Training to your esteem department, a summary report to the Hanoi’s People Committee.
